

Erie Neighborhood House

We are a human services agency rooted in the settlement house tradition, strengthening Chicago's immigrant communities since 1870.

Our Vision

A home with no borders, impacting lives to create powerful communities.

Our Reach

We serve 10,000 people each year—Latinx immigrants alongside individuals and families from all backgrounds.

With sites in West Town and Little Village, our programs and services support participants primarily from the West Side and Southwest Side of Chicago.

"Our family is stronger because of Erie House. We are building a better future for our children and finding new opportunities."

— Maria de la Luz Gutierrez
ESL graduate and Erie House parent
