

Erie Neighborhood House

WORKFORCE DEVELOPMENT PROGRAM

Equipping adults with the skills, tools and knowledge they need to earn a living wage and become leaders in the workforce.

PATHWAYS TO SUCCESS

Our cohorts support students as they develop basic skills in math, reading and writing through an industry-contextualized curriculum to propel them into advanced career training with pre-certification programs in healthcare and manufacturing.

STUDENT SUPPORT

Outside the classroom, students receive individualized guidance with career exploration, post-secondary training applications, financial aid counseling, resume building and professional development.

The program at Erie House was really great. It gave me the confidence I needed.

Veronica,
Healthcare Bridge graduate
